OR

PROFILE

Designing and developing games has been a passion since I was a child, from outdoor, to table top to digital. I have worked in many different environments; from fully remote to in-office in Tokyo and London, from Blender to 3DS Max or from Unity to Unreal. My other hobbies include languages, music and sport.

WORK EXPERIENCE

Technical Artist — **OCT 2025 ~**
Feral Interactive (London)

- Sole in-house technical artist, working with design and engineering teams on **AAA projects**
- Asset creation, optimisation and implementation in-engine using **Maya, 3DS Max, Blender** (models, animations, rigs, textures and materials)
- Scripting and testing in **proprietary game engines** through platforms (**VR and Mobile**) to implement art and gameplay mechanics

Technical Animator — **JUN 2025 - OCT 2025**
Sporty Group (Remote - Bournemouth)

- **Rigging, weight painting** and **animation** of characters using **Blender**
- **Implementation** and **playtesting** in **Unity Engine** for **Mobile**

Technical Art Work Experience — **APR 2025**
CG Hub (Tokyo)

- Car ADAS creation and shader development in **Kanzi Engine**

Technical Art Internship — **MAR 2024 - MAR 2025**
Meta Meow (Tokyo)

- AAA games outsourcing projects for Square Enix, ORCA, Game Freak
- **Shipped** 3 DCC tools taking them from conception to market with **documentation, user support and updates** in Blender and Unreal.
- Shader, material and VFX creation using **Substance Painter**, **Designer**, **Python** scripting, **Blender** procedural node workflows and basic **Houdini**

Indie Game Designer and Developer — **SEPT 2023 ~**
Digital Umami (Remote - UK)

Websites, Social Media, Content Creation — **NOV 2023~**
